From humble beginnings in rural Chicagoland delivering produce and furniture, visionary brothers Charles and Joseph White entered the heavy haul industry in 1939. Through perseverance and hard work, they transformed their small, family owned business in to what is now a nationally recognized leader in the heavy specialized carrier industry. White Brothers Trucking Co has hauled everything from massive bridge beams, mining and excavating equipment, architectural weldments, and even moved entire manufacturing plants.

With owner James White at the helm of the company since 1984, White Brothers Trucking Co continues its distinguished legacy. Winner of the 2003 SC&RA Heavy Haul of the Year award, and countless other awards, White Brothers' expertise has no limits.
